

Ed Callan

Plant Manager
Limerick Generating Station, Exelon Nuclear

Profile

Mr. Callan is Accountable for the safe, reliable, and efficient day-to-day operation and maintenance of the station and controls the resources needed to meet this objective.

Limerick is known for its safe, reliable, low-cost operations and prides itself on being a good neighbor in the local community.

Limerick has produced over 20 million net megawatt hours of electricity in each of the past three years. With both units running at 100% power, Limerick produces enough electricity to power over two million average American homes.

Professional History

Mr. Callan has more than 28 years of experience in the nuclear industry. Prior to becoming Limerick's Plant Manager, he was the Limerick Engineering Director. His previous positions include the Director of Operations, and the Director of Maintenance at Limerick. Prior to that, he served in various management positions at Limerick and Peach Bottom.

Education & Professional Affiliations

Mr. Callan holds a Bachelor of Science degree in Engineering from Widener University in Chester, Pennsylvania. He also holds an MBA from Drexel University in Philadelphia, PA.

He was licensed by the NRC as a Senior Reactor Operator at Limerick. He has completed several INPO leadership programs throughout his career.

Family

Mr. Callan lives in Upper Providence, Pa with his wife Kathi and their four children.
