

Larry Coyle

Position

Plant Manager, Braidwood Generating Station, Exelon Nuclear

Profile

Coyle is responsible for the day-to-day operations of the plant, which includes the Operations, Maintenance, Work Management, Chemistry/Environmental/Radwaste, Radiation Protection, and Security Departments. He also provides leadership and direction to ensure the safe and economical operation of the plant.

With both units running at 100% power, Braidwood produces enough electricity to power over two million average American homes.

Professional History

Coyle has over 25 years of nuclear industry experience. He has held a wide range of positions at Braidwood and Dresden in the Engineering, Operations and Maintenance departments. Prior to assuming the role of Braidwood Station Maintenance Director in August 2006, he was the Operations Director for LaSalle County Generating Station, a position he held for more than two years.

Education

Coyle earned an MBA from the University of Chicago and a Bachelor of Science degree in Nuclear Engineering from the University of Illinois at Champaign-Urbana. In addition, he formerly held a Senior Reactor Operator's License at Dresden.

Family

Coyle, his wife Susan, and their three children currently live in Shorewood, IL
