

## Russ Kearney

### Position

Site Vice President, Clinton Power Station, Exelon Nuclear

### Profile

Russ Kearney is responsible for all operations of the Clinton facility, which is recognized as one of the top performing plants in the nuclear industry. Clinton Power Station is known for its safe, reliable, low-cost operations and prides itself on being a good neighbor in the local community.

Clinton Power Station has produced over 20 million net megawatt hours of electricity in each of the past three years. With the unit running at full power, Clinton produces enough electricity to power over one million average American homes.

### Professional History

Kearney joined Exelon in April 2005 as the Work Management Director at the Dresden Nuclear Power Station coming to Exelon after 22 years with FirstEnergy at their Perry Nuclear Power Plant. During his tenure at the Perry Plant, Mr. Kearney held various positions including Operations Director, Maintenance Director, Nuclear Assurance Manager, Shift Manager, and Licensed Training Instructor.

Prior to becoming the Site Vice President at Clinton, Mr. Kearney was the Clinton Power Station Plant Manager, responsible for the safe, reliable operation of the Clinton Power Station and for the activities of Operations, Radiation Protection, Chemistry, Maintenance, and Work Management. Before becoming Plant Manager at Clinton, Mr. Kearney held the position of Nuclear Oversight Performance Assessment Director at Exelon's corporate offices at Cantera.

### Education

Mr. Kearney earned a Bachelor of Science, Nuclear Technologies, Excelsior College, Albany, NY.

Mr. Kearney has participated in the INPO Senior Nuclear Plant Management Course, various Exelon Leadership Programs and has held a Senior Reactor Operator License.

Mr. Kearney served in the United States Navy from 1976 to 1982

### Family

Russ and his wife, Darlene, reside in Mahomet, Illinois. They have two grown children, Christina and Aaron, and one granddaughter, Elizabeth.
