

## **Mark E. Kanavos**

### **Position**

Plant Manager, Clinton Power Station, Exelon Nuclear

### **Profile**

Mr. Kanavos is responsible for the safe, reliable operation of the Clinton Power Station and for the activities of Operations, Radiation Protection, Chemistry, Maintenance, and Work Management. AmerGen Energy Company's Clinton Power Station, which is recognized as one of the top performing plants in the nuclear industry, is known for its safe, reliable, low-cost operations and prides itself on being a good neighbor in the local community.

Clinton has produced over 20 million net megawatt hours of electricity in each of the past four years. With the unit running at full power, Clinton produces enough electricity to power over one million average American homes.

### **Professional History**

Mr. Kanavos has over 26 years of progressive nuclear plant experience and was most recently the Plant Manager at Comanche Peak Nuclear Power Plant in Glen Rose, Texas. Mr. Kanavos was the Site Engineering Director at Exelon's Dresden Nuclear Station and held various positions of increasing authority at the South Texas Project, Tennessee Valley Authority and Stone and Webster Engineering Corporation.

### **Education**

Mr. Kanavos has a Bachelor of Science in Mechanical Engineering from the University of Virginia and is a Registered Professional Engineer in the Commonwealth of Pennsylvania. He has participated in the INPO Senior Nuclear Plant Managers course as well as various leadership programs. He has an SRO Management Certification from the South Texas Project.

### **Family**

Mark and his wife, Doris, are relocating to Illinois. They have two children, a daughter, Katie, who attends Texas Tech University and a son, Adam, who is currently a freshman in high school.
