

Daniel J. Enright

Position

Site Vice President, Byron Generating Station, Exelon Nuclear

Profile

As site vice president, Enright is responsible for the station's safe and reliable production of electricity. He manages the site budgets (investment and expense) as well as the development and implementation of both short and long-term technical and business unit plans for the site. Also, he manages succession planning and development of personnel at the site.

Professional History

Prior to becoming site vice president at Byron in February 2009, Enright served in the same role at Exelon's LaSalle County Generating Station since September 2007. He also worked as plant manager for two years. In this role, he was responsible for the day-to-day operations of the plant, which include the Operations, Maintenance, Work Control, Chemistry/Environmental/Radwaste, Radiation Protection, and Security Departments.

Enright joined Exelon in January 1983 and has held various positions at LaSalle in outage planning and management, operations, and quality assurance. He also held a senior reactor operator license at LaSalle.

Education

Enright earned a bachelor's degree in Mechanical Engineering from the University of Illinois and a master's degree in Business Administration from Lewis University.

Family

Enright, his wife Mary, and their two children live in Ottawa, IL.
