About Exelon Corporation
Exelon is the leading U.S. competitive energy provider, with one of the cleanest and lowest-cost power generation fleets and largest retail customer bases in the country. The Exelon family of companies participates in every stage of the energy business, from generation to power sales to transmission to delivery. Headquartered in Chicago, the company does business in 48 states, the District of Columbia and Canada. Exelon has approximately $34.5 billion in annual revenues and trades on the NYSE under the ticker symbol EXC.

Energy Generation
Exelon Generation is one of the largest competitive power generators in the nation, with owned generating assets totaling more than 32,700 megawatts. With strong positions in the Midwest, mid-Atlantic, Texas and California, Exelon is the largest owner and operator of nuclear plants in the United States.

Competitive Energy Sales
Constellation is Exelon’s competitive retail and wholesale energy business. Constellation and its companies provide an array of innovative energy products and services to customers across the United States and in Canada. Headquartered in Baltimore, Constellation serves approximately 2 million residential, public sector and business customers, including more than two-thirds of the Fortune 100.

Energy Delivery
Exelon’s six utilities deliver electricity and natural gas to approximately 10 million customers in Delaware, the District of Columbia, Illinois, Maryland, New Jersey and Pennsylvania through its Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and Pepco subsidiaries.

- Exelon ranked among the top five U.S. utility companies in Newsweek’s 2015 Green Rankings.
- Exelon was named to the Dow Jones Sustainability North America Index for the tenth year in a row in 2015.

Driving Competition and Customer Choice
As the nation’s largest competitive energy provider, Exelon maintains a strategic presence in key competitive markets and believes that competition drives choice, innovation and savings for businesses and residential customers alike. The company champions competitive power markets as the best framework for meeting important economic and environmental policy objectives, including ensuring the nation’s shift to a cleaner energy supply in the most cost-effective manner.

Advancing Clean Energy
Exelon believes that clean, affordable energy is the key to a brighter, more sustainable future. It has one of the nation’s cleanest and lowest-cost power generation portfolios, with 59 percent nuclear, 20 percent natural gas and approximately 11 percent hydro, wind, solar and other clean generation. In addition, Constellation provides customers with clean energy solutions including natural gas supply, solar energy solutions, energy efficiency services and real-time energy management.

Exelon has long supported efforts to reduce carbon and other forms of air pollution from the power sector. Exelon 2020, for instance, was Exelon’s industry-leading program to eliminate greenhouse gas emissions and advance a clean
