Emergency Planning for the
Three Mile Island Area

Important Safety Information
For Your Community
and Annual Needs Survey

2019/2020

Please read the entire brochure or have someone translate it for you. Discuss this information with members of your family, and then keep the brochure in a convenient place for future use.

ESTA INFORMACIÓN ES IMPORTANTE
Por favor lea este panfleto o busque a alguien que se lo lea. Comparta esta información con su familia y mantenga este panfleto en un lugar conveniente para un uso futuro.
What to Do in an Emergency

Monitor and Prepare
Tune your radio or TV to one of the stations listed in this brochure. Monitor the radio or TV for emergency information and follow emergency instructions. People should prepare for possible evacuation (e.g., reunite with family members, assemble emergency kits, provide for pet needs, keep off of the road as much as possible).

Keep Phone Lines Open
*Please do not make unnecessary phone calls.* Leaving phone lines open for emergency workers will help everyone involved. If you require assistance, call the emergency phone numbers broadcast on the radio or TV.

Shelter-in-Place
Go indoors and stay there. Close all doors and windows and shut off any systems that draw in outside air, such as furnaces, fireplaces and air conditioners. Keep listening to the radio or TV for updates. Keep pets inside and shelter farm animals. If traveling in a vehicle, close windows and vents.

If Instructed to Evacuate
In an evacuation, people in the affected area will be asked to go to local reception centers listed within this brochure. After this, they can stay at specified mass care centers or with friends or relatives outside the evacuation zone.

*Please do not try to pick up children or others at schools, hospitals, nursing homes or overnight campgrounds.* These facilities will be following their own special emergency plans, and you would most likely miss connections. If evacuated, students, hospital patients and nursing home residents will be accompanied to relocation centers where their needs will be addressed. To find out where people are being moved, stay tuned to the radio or TV.

Plan for three days away from home, locking up and turning appliances off as you would for a weekend vacation. Pack all necessary items (see “Emergency Supplies”). Evacuate everyone in your home, following directions given on the radio or TV. These routes will have been selected as the safest ways out of the affected area.

Shadow Evacuation
People should only evacuate when instructed to do so. Evacuation of individuals not within the declared evacuation area could impede evacuation traffic flow. Monitor the radio or TV and prepare to follow instructions.

Staged Evacuation
You may be instructed to shelter-in-place until people in a higher risk area are evacuated. Monitor the radio or TV and prepare to follow instructions.

Information for Farmers
When advised to do so, remove all livestock from pasture, shelter if possible and provide them with stored feed and protected water. The county U.S. Department of Agriculture representative will provide further instructions regarding the protection of livestock and foodstuffs.

Cumberland County Cooperative Ext. (717) 240-6500
Dauphin County Cooperative Ext. (717) 921-8803
Lancaster County Cooperative Ext. (717) 394-6851
Lebanon County Cooperative Ext. (717) 270-4391
York County Cooperative Ext. (717) 840-7408
School Information

If your child’s school is in session at the time evacuation is recommended, children attending schools located within the emergency planning zone will be transported to designated host schools outside the area. They will remain under supervision until picked up by parents or guardians. These host schools have been planned to coincide with main Evacuation Routes. Children whose homes are inside the emergency planning zone, but who attend school outside the emergency planning zone, will not be sent home if an evacuation is recommended. They will remain at the school under supervision until picked up by parents or guardians. See the “County-specific School Information” within this brochure or contact school officials for more information.

Non-Public School and Day Care Information

Parents and guardians with children attending non-public schools or at day care facilities within the emergency planning zone should become familiar with the facilities’ emergency plans. Contact the facility operator for more information.

How to Prepare for an Emergency

You never know when you might have to leave your home on short notice. A nuclear incident is only one possibility. Floods, fires, chemical spills or severe illness could occur at any time. Preparing now will help you respond more quickly in any emergency.

Emergency Kit

Keep an emergency kit – portable radio, flashlight, extra batteries, extra car keys, first aid kit and other items – in a special place that the whole family can easily locate. Include this booklet in your emergency kit with your location marked on the map. Write a list of the items you would want to take if you had to leave home quickly and post the list in a convenient spot. Be sure to keep a supply of all the items on your list. Gather any important documents that you might need in an emergency and keep them together in a safe place that you can access quickly and easily.

Transportation

Maintain your vehicle in good running order and keep the gas tank at least half full at all times. If you will need transportation in an emergency, use the attached reply card to notify local authorities now.

Pets

Service animals will be permitted inside reception centers or shelters. Pet sheltering information will be available at the reception centers and shelters for your area.

Contact your respective County Emergency Management Agency for additional information.
## Emergency Supplies

- General first aid kit and any special medication
- Cash, credit, or ATM cards
- Important documents
- Change of clothing
- Personal health products (toothbrush, eye care, sanitary products, etc.)
- Baby formula, diapers, car seat, toys
- Special dietary foods
- Pet related supplies

## Emergency Alert System

The **Emergency Alert System** will provide you with official information in cases of tornadoes, floods, nuclear plant accidents or other emergencies. Turn on your radio or TV for official information and instructions.

* Primary Emergency Alert Stations
People with Access & Functional Needs

The information gathered by this survey is CONFIDENTIAL. Your county emergency management agency (EMA) and emergency services personnel utilize this information for emergency response planning.

If you, someone in your household or someone you know who lives in the emergency planning zone will need assistance in an emergency, please notify your county EMA today. Simply fill out and mail the attached reply card. It is postage-paid, so you don’t even need a stamp.

This information is updated annually. Please return this survey even if you have previously responded. If you prefer, you may contact your local EMA directly. Area agencies are listed elsewhere in this pamphlet.

Local officials may contact you for additional information.

Please check “yes” or “no” for the following questions:

1. Do you have a hearing impairment that would make it difficult to hear outdoor warning sirens or other emergency notifications?  □ Yes □ No
2. Do you have a medical or physical condition that would make it difficult to evacuate in an emergency?  □ Yes □ No
3. Are you without any personal means of transportation, such as a car or truck, to evacuate in an emergency?  □ Yes □ No
   Number of people needing transportation?
   __________________________________________
4. Do you have a radio or television?  □ Yes □ No

2019/2020
Benefits and Potential Risks of Nuclear Power

Used properly, nuclear fission (the “splitting” of uranium atoms) is a safe, dependable source of electricity. It is reasonable, though, to be concerned about what might happen in the event of a serious incident at a power plant.

A power plant reactor cannot produce a nuclear explosion. The uranium fuel contains very little fissionable material. As for radiation, the complex structure of a nuclear power plant is designed to prevent the release of radiation. A serious incident, however, could allow some radiation to escape and be carried away from the plant by the wind. The degree of risk to the public would depend on the size of the plume, the direction and speed of the wind, and other factors.

Emergency Planning for the Three Mile Island Area

Special plans have already been developed to protect the public in the event of a nuclear incident in your area. These plans give specific attention to people who – like you – live, work or visit within 10 miles of a nuclear power plant. Procedures are in place to help protect you and other members of the public in the unlikely event of a nuclear emergency. If necessary, area officials would declare an emergency and take measures to ensure public safety.

This pamphlet addresses procedures for the Three Mile Island area. Please read and keep this material for future reference. Although it specifically addresses a potential nuclear accident, much of the information is useful in any major emergency.

Warning Sirens

Communities across the United States may use outdoor warning sirens for many purposes. Sirens are not exclusive to nuclear power facilities. Sirens are designed to warn the public of many hazards, including fires, flooding, and other events that warrant public notifications. If you hear a siren, you should tune to one of the Emergency Alert System (EAS) stations listed in this brochure for official information.

The siren network is tested semi-annually in June and December with a full activation. A monthly test is also conducted which operates the sirens individually or collectively for less than one minute. You may hear this test, but it is of much shorter duration than a full sounding.

Siren Malfunction

A siren may malfunction and inadvertently sound. Some indications of a siren malfunction are a siren sounding for more than five minutes, or a siren sounding with no accompanying message on the Emergency Alert System.

Siren Malfunction Contact Numbers

Report siren malfunctions to the following county emergency management officials at the numbers below:

Cumberland County: (717) 238-9676
Dauphin County: (717) 558-6900
Lancaster County: (800) 808-5236
Lebanon County: (717) 272-7621
York County: (717) 854-5571

Public Inquiry Telephone Numbers

Cumberland County: (717) 218-2835
Dauphin County: (717) 558-6800
Lancaster County: (717) 664-1221 (During Emergencies)
Lebanon County: (717) 272-7621
York County: (717) 840-2380
Shelter-in-Place or Evacuation

Officials might recommend that people either take shelter indoors or evacuate an area. It is critically important that you follow the recommended course of action. Staying home when instructed to evacuate or driving around when urged to stay indoors could expose you to danger unnecessarily.

NOTE: If you or someone you know might not respond to warning sirens or radio or TV broadcasts due to impaired hearing or other factors, please use the attached reply card to notify local authorities now.

Potassium Iodide (KI)

Potassium Iodide (KI) is a nonprescription drug that may prevent the thyroid from absorbing radioactive iodine. KI is one type of protective action that may be recommended during a nuclear incident. KI should only be taken at the direction of the appropriate state and local authorities. Consult your physician if you have concerns about the safety of KI for your child or yourself. KI is effective in blocking the absorption of radioactive iodine only. Since it does not block the absorption of any other radioactive material, evacuation or sheltering in place may be the most effective and preferred protective actions. Residents living within the 10-mile radius, who have not already done so, may obtain more information about KI or obtain KI by contacting:

Pennsylvania Department of Health at 1-877-PA-HEALTH or www.health.state.pa.us

Classification of Accidents

There are four accident classifications used to describe nuclear emergencies. We contact federal, state and local authorities in each of the following situations:

UNUSUAL EVENT — Events are in progress or have occurred which indicate a potential degradation of the level of safety of the plant or indicate a security threat to facility protection has been initiated. No releases of radioactive material requiring offsite response or monitoring are expected unless further degradation of safety systems occurs.

ALERT — Events are in progress or have occurred which involve an actual or potential substantial degradation of the level of safety of the plant or a security event that involves probable life threatening risk to site personnel or damage to site equipment because of HOSTILE ACTION. Any releases are expected to be limited to small fractions of the Environmental Protection Agency (EPA) Protective Action Guides (PAGs).

SITE AREA EMERGENCY — Events are in progress or have occurred which involve actual or likely major failures of plant functions needed for protection of the public or hostile action that results in intentional damage or malicious acts; 1) toward site personnel or equipment that could lead to the likely failure of or; 2) that prevent effective access to, equipment needed for the protection of the public. Any releases are not expected to result in exposure levels which exceed EPA PAG exposure levels beyond the site boundary.

GENERAL EMERGENCY — Events are in progress or have occurred which involve actual or imminent substantial core degradation or melting with potential for loss of containment integrity or hostile action that results in an actual loss of physical control of the facility. Releases can be reasonably expected to exceed EPA PAG exposure levels offsite for more than the immediate site area.
What You Need to Know About Nuclear Power Plants and Radiation

How Do Nuclear Plants Work?

Power plants create electricity by running steam turbines, which are powered either by fossil fuels – coal, oil, natural gas – or by nuclear power. Nuclear technology produces energy by splitting uranium atoms in a process called fission. (A) Fission generates heat that (B) boils water for the steam that runs the (C) turbines, which produce the (D) electricity that we all use – making, for instance, (E) toast for breakfast.

In a nuclear power plant, pea-sized uranium pellets are stacked inside long, thin fuel rods, which are grouped in “assemblies” inside a reactor “core.” The core is encased in a very thick steel capsule, and the entire reactor is further protected by an airtight steel and concrete building called a “containment.” This complex structure is designed to help ensure the safe utilization of nuclear power.

How Do We All Benefit From Nuclear Power?

Any fuel used to produce energy also produces waste. By-products of coal-burning include smoke, ashes and slag. Even with the latest technologies, it is impossible to prevent some of this waste from reaching the environment outside the power plant. Nuclear power generation, on the other hand, produces waste primarily in the form of spent fuel, which is not released into the environment. Besides helping to protect the environment, nuclear energy is also highly efficient, producing vastly more energy for its weight than coal or oil. We would have to burn more than 120 gallons of oil or up to a ton of coal to produce the same amount of energy as that found in a single pellet of uranium.

What Is Radiation?

Radiation is energy in the form of rays or particles. Some atoms – the ones we call radioactive – are unstable. As they go through a natural process called “decay” in which they change into a stable atom, they throw off rays or particles called radiation. Radiation is exactly the same, whether from nature, or medical or industrial activities.

Radiation is measured in millirems. On average, a person receives about 300 millirem of radiation annually from natural sources and another 300 millirem or so from X-rays and other medical procedures. It takes more than 35 times this much — over 20,000 millirem in a single day — to produce identifiable effects in the body. Federal regulations allow workers to receive up to 5,000 millirem of radiation in the course of a year’s work.

Evacuation Routes/Reception Centers/Transportation Assistance Numbers

Know your location on the map and mark it. Some primary evacuation routes are listed below. In an emergency, follow the directions given on the radio or TV, even if different from those shown below. Broadcasted directions will be based on actual road and weather conditions and wind direction – helping to ensure your safety as you leave the evacuation area. Report to the identified reception center. If you need a temporary place to stay, the center will provide directions to a mass care center nearby. For those who require transportation assistance, call the transportation assistance numbers listed below for your area.
Evacuation Routes/Reception Centers/Transportation Assistance Numbers

Cumberland County

New Cumberland Borough
Evacuation Route: Take I-83 South to the Pennsylvania Turnpike (I-76). Take I-76 West to the Newville Maintenance Exit to Route 233. Go South on Route 233 to the reception center.
Reception Center: Big Spring High School, Newville.
Transportation Assistance Number: (717) 774-0404

Lower Allen Township
Evacuation Route: Take I-83 South to the Pennsylvania Turnpike (I-76). Take I-76 West to the Newville Maintenance Exit to Route 233. Go South on Route 233 to the reception center.
Reception Center: Big Spring High School, Newville.
Transportation Assistance Number: (717) 975-7581

Cumberland County-Specific School Information

West Shore School District
District students living in the TMI plume exposure pathway (EPZ) but attending school outside of the EPZ would be sheltered in place until picked up by a parent or guardian.
Risk Schools:
• ACE Administration Building
• Fairview Elementary School
• Fishing Creek Elementary School
• Newberry Elementary School
• Red Mill Elementary School
Host School:
• Allen Middle School
Risk Schools:
• Red Land High School
Host School:
• Cedar Cliff High School
Risk Schools:
• Crossroads Middle School
• New Cumberland Middle School
Host Facility:

Risk Schools:
• Hillside Elementary School
• St. Theresa School
Host School:
• Washington Heights Elementary School

Dauphin County

Conewago Township
Evacuation Route: Take 743 North to I-81 North to Route 209 South (Exit 107) to the reception center.
Reception Center: Williams Valley High School, Williamsstown.
Transportation Assistance Number: (717) 534-8556

Derry Township
Evacuation Route: Take Route 322 East to Route 241 North to Route 72 North to Route 422 East to Birch Road to Metro Drive to the reception center.
Reception Center: Lebanon County Career and Technology Center.
Transportation Assistance Number: (717) 533-2057 ext 3152

Harrisburg City
Evacuation Route: Take 81 South to Exit 20, turn right to Route 997, left onto Main Street, left onto Scotland Road.
Reception Center: Chambersburg Area MS North.
Transportation Assistance Numbers: (717) 939-3303 or (717) 939-7075

Highspire Borough
Evacuation Route: Take 81 South to Exit 20, turn right to Route 997, left onto Main Street, left onto Scotland Road.
Reception Center: Chambersburg Area MS North.
Transportation Assistance Numbers: (717) 939-3303 or (717) 939-7075

Hummelstown Borough
Evacuation Route: Take Route 39 North to I-81 North to Route 209 South (Exit 107) to the reception center.
Reception Center: Williams Valley High School, Williamsstown.
Transportation Assistance Number: (717) 566-2555

Londonderry Township
Evacuation Route: Take Route 283 East to Route 743 North to I-81 North to Route 209 South (Exit 107) to the reception center.
Reception Center: Williams Valley High School, Williamsstown.
Transportation Assistance Numbers: (717) 546-0677 or (717) 546-0678

Lower Paxton Township
Evacuation Route: Take I-83 North to I-81 South to Shippensburg to the reception center.
Reception Center: Shippensburg University, Shippensburg.
Transportation Assistance Number: (717) 657-5600

Lower Swatara Township
Evacuation Route: Take Route 283 East to Route 743 North to Pennsylvania Turnpike (RT 76), via maintenance access gate. East to Exit 266, Route 72 North to Route 419 East to Route 501 North to Route 78 East to Exit 29B, Route 61 North to Schuylkill Haven to the reception center.
Reception Center: Blue Mountain High School, Schuylkill Haven.
Transportation Assistance Number: (717) 939-9377

Middletown Borough
Evacuation Routes: (East of Spruce Street) Take Vine St. north to Route 283 East to Route 743 North to Pennsylvania Turnpike (RT 76), via maintenance access gate. East to Exit 266, Route 72 North to Route 419 East to Route 501 North to I-78 East to Exit 29B, Route 61 North to the reception center.
OR
(West of Spruce Street) Take North Union Street North through Fruehauf Service Plaza to Pennsylvania Turnpike (RT 76) East to Exit 266, Route 72 North to Route 419 East to Route 501 North to I-78 East to Exit 29B, Route 61 North to the reception center.

OR
Take North Union Street North to Route 283 East to Route 743 North to Pennsylvania Turnpike (RT 76), via maintenance access gate. East to Exit 266, Route 72 North to Route 419 East to Route 501 North to I-78 East to Exit 29B, Route 61 North to the reception center.
Reception Center: Blue Mountain High School, Schuylkill Haven.
Transportation Assistance Number: (717) 902-0706
Paxtang Borough
Evacuation Route: Take I-83 North to I-81 South to Shippensburg to the reception center.
Reception Center: Shippensburg University, Shippensburg.
Transportation Assistance Number: (717) 564-0974

Royalton Borough
Evacuation Route: Take local routes East to Route 230 East to Route 283 East to Route 743 North to Pennsylvania Turnpike (RT 76), via maintenance access gate, East to Exit 266, Route 72 North to Route 419 East to Route 501 North to I-78 East to Exit 29B, Route 61 North to the reception center.
Reception Center: Blue Mountain High School, Schuylkill Haven.
Transportation Assistance Number: (717) 944-4831

South Hanover Township
Evacuation Route: Take Route 39 North to I-81 North to Route 209 South (Exit 107) to the reception center.
Reception Center: Williams Valley High School, Williamstown.
Transportation Assistance Numbers: (717) 566-0224

Steelton Borough
Evacuation Route: Take I-81 South to Exit 20, turn right to Route 997, left onto Main Street, left onto Scotland Road. Chambersburg Area MS North is on right.
Reception Center: Chambersburg Area MS North.
Transportation Assistance Number: (717) 939-2478 or (717) 982-6063

Swatara Township
Evacuation Route: Take I-83 North to I-81 South to Shippensburg to the reception center.
Reception Center: Shippensburg University, Shippensburg.
Transportation Assistance Number: (717) 564-2951 and (717) 901-2922

Evacuation Routes/Reception Centers/Transportation Assistance Numbers

**Lancaster County**

Conoy Township
Evacuation Route: Take PA. 441 South to U.S. 30 East to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 367-4927

East Donegal Township (North)
Evacuation Route: (North of Donegal Springs Road) Take PA. 230 East to PA 283 East to U.S. 30 West to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 367-5300

East Donegal Township (South)
Evacuation Route: (South of Donegal Springs Road) Take PA. 743 and 441 South to U.S. 30 East to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 426-3167

Elizabethtown Borough
Evacuation Route: Take PA. 743 North or PA. 230 East to PA. 283 East to U.S. 30 West to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 367-5300

Mount Joy Township
Evacuation Route: Take PA. 772 North or PA. 230 East to PA. 283 East to U.S. 30 West to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 367-5300

West Donegal Township
Evacuation Route: PA. 743 North or PA. 230 East to PA. 283 East to U.S. 30 West to the reception center.
Reception Center: Park City Mall, Lancaster.
Transportation Assistance Number: (717) 367-5300

**Lancaster County-Specific School Information**

Elizabethtown School District
Risk Schools: East High Street Elementary, Rheems Elementary, Mill Road Elementary, Bainbridge Elementary, Bear Creek Elementary, Mount Calvary School, Elizabethtown Area Middle School, Elizabethtown Area High School.
Host School: Donegal High School
Donegal School District
There are no schools in the Donegal School District located within the TMI plume exposure pathway (EPZ). Students living within the EPZ will be sheltered at their respective school until picked up by parents or guardians.

**Lebanon County**

South Londonderry Township
Evacuation Route: Take Route 322 East to Route 241 North to Route 72 North to Route 422 East to Birch Road to Metro Drive to the reception center.
Reception Center: Lebanon County Career and Technology Center.
Transportation Assistance Number: (717) 679-0458

Lebanon County-Specific School Information

Palmyra School District
There are no schools in the Palmyra School District located within the TMI plume exposure pathway (EPZ).

**York County**

Conewago Township (East)
Evacuation Route: (For the area East of Lewisberry Road) Take I-83 South to Glen Rock Exit to Route 216 West to Route 616 South to Fissels Church Road to the reception center.
Reception Center: Susquehannock High School, South of Glen Rock.
Transportation Assistance Number: (717) 266-6735

Conewago Township (West)
Evacuation Route: (For the area West of Lewisberry Road) Take local roads to PA-74 North to Northern High School.
Reception Center: Northern High School, Dillsburg.
Transportation Assistance Number: (717) 292-4196

Dover Township
Evacuation Route: Take local roads to PA-74 North to Northern High School.
Reception Center: Northern High School, Dillsburg.
Transportation Assistance Number: (717) 292-4196

East Manchester Township (East)
