

SQAD-6 Quality Control Notice (QCN)

Sub Code: CHEM

Chemical Analysis

Each item ordered for which this quality statement is specified requires a "Certified Actual Chemical Test" traceable to the lot, batch or heat of material or serial number of the item for which it was generated. This certification shall include an analysis of all elements required by the material specification referenced in the Exelon PO/ Contract and its reference. The certification shall reference the PO/Contract number, the material lot, batch, heat number, etc.
